2.Call:	CQ DMC Contest
3.Categories:	<p>1. SOAB-QRP SOAB-QRP (Single operator, all bands, QRP station). Operating time 24 hours. Maximum power 10 watts. Only one signal is allowed on any one time. SOAB-QRP operators may change the band any time. SOAB-QRP operators should perform all of the operating, logging and spotting functions.</p> <p>2. SOAB-QRP-12h SOAB-QRP-12h (Single operator, all bands, QRP station, 12 hours). Operating time 12 hours with min. 60 minutes off between the transmissions. Maximum power 10 watts. Only one signal is allowed on any one time. SOAB-QRP-12h operators may change the band in any time. SOAB-QRP-12h operators should perform all of the operating, logging and spotting functions.</p> <p>3. SOAB-LP SOAB-LP (Single operator, all bands, low power). Operating time 24 hours. Maximum power 100 watts. Only one signal is allowed on any one time. SOAB-LP operators may change the band in any time. SOAB-LP operators should perform all of the operating, logging and spotting functions.</p> <p>4. SOAB-LP-12h SOAB-LP-12h (Single operator, all bands, low power, 12 hours). Operating time 12 hours with min. 60 minutes off between the transmissions. Maximum power 100 watts. Only one signal is allowed on any one time. SOAB-LP-12h operators may change the band in any time. SOAB-LP-12h operators should perform all of the operating, logging and spotting functions.</p> <p>5. SOAB-HP SOAB-HP (Single operator, all bands, high power). Operating time 24 hours. No output power limit on all bands. Only one signal is allowed on any one time. SOAB-HP operators should perform all of the operating, logging and spotting functions.</p> <p>6. SOAB-HP-12h SOAB-HP-12h (Single operator, all bands, high power, 12 hours). Operating time 12 hours with min. 60 minutes off between the transmissions. No output power limit on all bands. Only one signal is allowed on any one time. SOAB-HP-12h operators should perform all of the operating, logging and spotting functions.</p> <p>7. MOABST-HP MOABST-HP (Multi operators, all bands, single transmitter, high power). Operating time 24 hours. No output power limit on all bands. Only one transmitter and one signal on the band is allowed on any one time. MOABST-HP operators may change the band once in any 5 minute period.</p> <p>8. SWL SWL Stations (Short Wave Listener Station). SWLs are required to log the callsigns of both the heard and correspondent station. Scores are calculated based only upon the heard station, using the same rules as transmitting stations. A callsign may not appear more than three (3) times, as a correspondent on same band.</p>
4.Bands:	80 meters band (3.5 MHz) 40 meters band (7 MHz) 20 meters band (14 MHz) 15 meters band (21 MHz) 10 meters band (28 MHz)
5.Exchange:	Signal report + serial number, starting 001 (Example: 599 001)
6.QSO points:	Each completed QSO scores 1 (one) point.
7.Multipliers:	Worked prefixes, each one count only once in the contest regardless of band. Sample: DK1., DL1., DL2., DL2016., DL3., ...

8. Scoring:	QSO points x Multipliers = TOTAL SCORE
9. Log instructions:	<p>1) Logs must be submitted in CABRILLO format by e-mail to: new!! rtty2018@digital-modes-club.org new!! (In some time you will receive confirmation e-mail.)</p> <p>2) All logs must be received by 22 August 2018</p> <p>3) All time must be in UTC</p> <p>4) Logs should be sent as an attachment file -The subject line of your e-mail should include your callsign and category (Example: WA2XXX - SOAB-HP) -Don't use attachment filenames like: DMC.log or Contest.cbr, put the Callsign on 1st place of the filename!</p> <p>5) cut... only by e-mail</p> <p>6) All logs received after 22 August 2018 will be accepted as "CHECK LOG"</p>
10. Disqualification:	<p>1) Violation of the rules; unsportsmanlike behavior.</p> <p>2) Actions and decisions of the DMC Contest Committee are official and final.</p>
